MICHIGAN DEPARTMENT OF CORRECTIONS 2012 STATISTICAL REPORT

Rick Snyder, Governor

Daniel H. Heyns, Director Michigan Department of Corrections

August 12, 2013 (See next page for a list of revisions and releases.)

Release History

2012 STATISTICAL REPORT

INTRODUCTION

Since the 2000 edition of the MDOC Statistical Report, bound paper copies have no longer been produced and distributed. Instead, these annual statistical reports are published only on the official MDOC web site on the Internet. The MDOC home page web address is http://www.michigan.gov/corrections, and the Statistical Reports are located under the *Publications & Information* link.

The crime breakdowns in the core tables of the first three sections of the report, regarding felony court dispositions, prison intake and prison population, are all based on the longer 10-character offense codes, as was first shown in the 1999 report. They are also sorted by offense code rather than by crime frequency or maximum term. Since the new sort order keeps sequential offense codes together, similar crimes that have identical maximum penalties are no longer consolidated. This new level of detail provides much richer information than in the past.

However, the additional detail also makes the crime tables much longer; the reader must be careful to watch for related offense codes when attempting to examine the data for a particular type of crime. For example, several separate offense codes now appear for the crime of first degree criminal sexual conduct (750.520B--) in each crime table, because each code represents a specific characteristic of the offense.

Summary narrative reflecting on the Department's observations about what the data show has again been kept to a minimum, as the Department now produces a separate Annual Report for that purpose.

Section Overview

This report is divided into ten major sections (A-J).

- Section A, Court Dispositions, contains data on statewide felony court dispositions broken down by offense, sentencing jurisdiction, and type of disposition.
- Section B, Prison Commitments, provides prison intake data by the number and characteristics of new prisoners received by the Department.
- Section C, Prisoner Population, presents descriptions of Michigan's correctional facilities

- and statistics regarding the characteristics of the prisoner population.
- Section D, Parole Board, summarizes data on offender movement to parole and Parole Board activity and decisions, and examines the parole outcomes.
- Section E, Probation and Parole Supervision, contains data and information regarding the community supervision programs and functions of the Department's Field Operations Administration (FOA).
- Section F, Department Operations, contains data and information about a variety of Department programs and administrative functions/operations.
 Section F contains the following subsections:
- Prisoner Program, Misconduct and Litigation Statistics
- Michigan State Industries
- Bureau of Health Care Services
- Department Expenditures and Personnel Summaries
- Section G, Prisoner Reentry, was a new section in 2005 and reflects the development of the statewide initiative by several stakeholders, one of whom is MDOC. The first year that prisoners were paroled to the community under this initiative was in 2005.
- Section H, Community Reentry Program and Electronic Monitoring, brings the remainder of the Community Residential Program under the umbrella of Prisoner Reentry, along with the Residential Reentry Program, and the Intensive Detention Reentry Program.
- Section I, Special Alternative Incarceration Program (SAI), is administered by the Correctional Facilities Administration with Cooper Street Correctional Facility serving administratively as the parent institution. SAI has been redesigned to operate under Prisoner Reentry principles.
- Section J, Office of Community Alternatives, provides data regarding the utilization of community sanctions and services for non-violent offenders in order to reduce admissions to prison.

MICHIGAN DEPARTMENT OF CORRECTIONS Organizational Chart

As of December 31, 2012

Court Dispositions

This section contains data on statewide felony court dispositions broken down by offense, sentencing county and type of disposition. Offenders may have committed multiple offenses that the felony courts handle as a single court disposition or sentencing event. Both offender-based data and offense-based data have distinct uses that are not interchangeable, therefore, offender-based data is presented in **A1 Series of Tables**, and offense-specific data is presented in **A2 Series of Tables**.

New as of the 2011 Statistical Report: The A1 and A2 Series of Tables were improved as they were converted from the retiring mainframe to newer technology. The improvements were in a number of areas: breakdown by County instead of by Circuit Court; clearer disposition groupings prioritized by the degree of offender incapacitation; inclusion of previously unreported offenses; and a more uniform method of aggregating offenses (crimes) into offenders (people). These improvements have resulted in more offenders being reported in the 2011 A1 Series of Tables and more offenses being reported in the 2011 A2 Series of Tables than in similar tables for prior years. In order to provide a historical context for the improved 2011 tables, improved versions of the previously published years 2003 through 2010 have been published in a report titled, 'MDOC Statistical Report Supplement: Court Dispositions (A1 and A2 Series of Tables, Revised Using Improved Data Analysis Methodology)'. This report also includes tables for 2011, and has been posted on the MDOC website.

Tables A and **A1** through **A1c** aggregate multiple offenses and/or disposition (sentencing) dates into offenders. In other words, offenders with multiple offenses and/or multiple dispositions from the same sentencing county during the year were reported as follows:

- Offenses/Dispositions for the same offender that occurred on different days were reported as separate disposition events. (It is possible that these separate events were combination events, as discussed in the next bullet.)
- Offenses/Dispositions for the same offender that occurred on the same day were aggregated together into one disposition event using the following sequence in order to report the most severe details for the disposition:
- The most severe disposition was reported (e.g., a disposition to prison was reported over a disposition to jail).

- If the dispositions were of equal severity, then the disposition with the longest minimum term was reported.
- If the dispositions and minimum terms were of equal severity, then the disposition with the longest maximum term was reported. (Minimum term is used as the first severity tie-breaker, since it represents the minimum penalty imposed by the judge based on the mitigating/aggravating facts of the offender's current criminal activity, whereas the maximum term represents the Legislature's statutory limitations on judicial discretion for the current criminal activity.)

The **A1 Series of Tables** are based on offenders, so multiple offenses/dispositions for the same offender are aggregated and reported per the above sequence.

Table A shows the statewide prison commitment rates of offenders for the current year and the previous fourteen years.

Table A1 shows the court dispositions of offenders broken down by disposition type and by sentencing county within each of the two Field Operations Administration (FOA) regions.

Tables A1a through **A1c** show the information in **Table A1** broken down by major crime categories (i.e., non-assaultive, drug and assaultive offenses).

The **A2 Series of Tables** are based on all offenses, so multiple offenses/dispositions for the same offender are reported individually by offense.

Table A2 shows the court dispositions of offenses broken down by disposition type and offense.

Tables A2a through **A2c** show the information in **Table A2** broken down by major crime categories (i.e., non-assaultive, drug and assaultive offenses).

The crimes in the **A2 Series of Tables** are sorted by Michigan Compiled Law (MCL) numbers and Prosecuting Attorney's Coordinating Council (PACC) codes (the sort order used since 1999). Since this sort order keeps related codes together, similar crimes that have identical maximum penalties are not consolidated. This level of detail provides much richer information, but the reader must be careful to watch for related codes when attempting to examine the frequency and disposition pattern for a particular type of crime. For example, several separate offense codes appear for the crime of first degree criminal sexual conduct (750.520B--) because each code represents a specific characteristic of the offense.

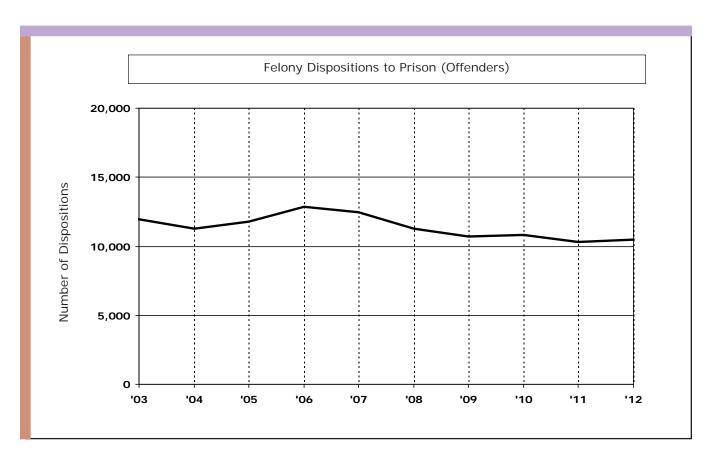

△ Statewide Prison Commitment Rates

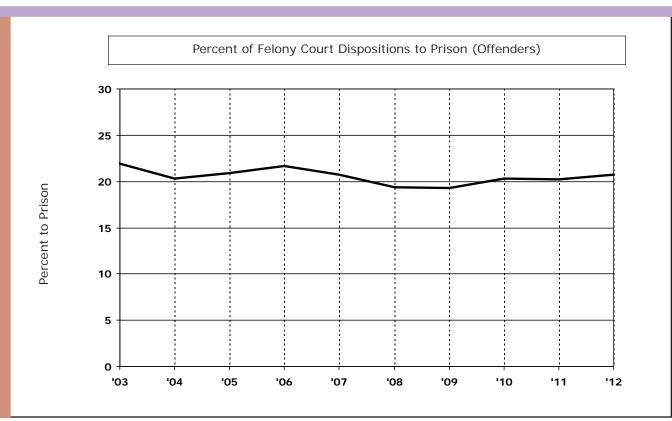

Calendar Years 2003 - 2012

Year	Felony Dispositions (Offenders)	Felony Dispositions to Prison	Percent of Felony Dispositions to Prison
2003	54,482	11,934	21.9
2004	55,545	11,260	20.3
2005	56,155	11,761	20.9
2006	59,357	12,859	21.7

¹ Includes HYTA Prison.

² Includes Delayed and Suspended Sentences, HYTA Probation, and SAI Probation.

³ Includes Restitution, Fines, Costs, Community Service and DHS sentences.

Community Reentry Program and Electronic Monitoring

The Community Reentry Program impacts prison admissions by intervening and diverting eligible parole violators who would otherwise be returned to prison. At the end of 2012, the average time before reparole for a parole technical violator was 12.5 months. The 2012 average successful Residential Reentry Program (RRP) stay was 65.1 days, or 2.1 months, which saved an average of 10.4 months per parole technical violator RRP participant. The following two programs fall under the Community Reentry Program:

- The Residential Reentry Program (RRP), which currently operates as two sites – the Lake County Residential Reentry Program (LCRRP) and the Detroit Reentry Center (DRC).
- The Intensive Detention Reentry Program (IDRP) which provides parole agents the opportunity to detain parolees with compliance problems before they become more serious parole violators. The IDRP currently operates at two sites - the Ingham County Jail IDRP and the Wayne County IDRP located within the DRC.

Electronic Monitoring allows for the monitoring and enforcement of curfews and other conditions of community supervision. Electronic Monitoring includes radio frequency (RF) electronic tether monitoring and global positioning system (GPS) monitoring:

RF electronic monitoring is a curfew monitoring program that allows the MDOC to verify the offender's compliance with a court or parole board ordered curfew. RF electronic monitoring may be imposed as an initial condition of sentencing or release, or as a sanction for violation behavior. RF monitoring consists of three broad offender types: probationers, parolees, and contractual. Probationers and parolees may be further divided by whether they participated in the Special Alternative Incarceration (SAI) program or not. The Electronic Monitoring

Center also contracts to provide monitoring services for Community Electronic Monitoring (CEM) and for the Regional Detention Services System (RDSS).

• GPS monitoring allows for the tracking of offender movement in order to determine compliance with supervision plans. The Department only uses active GPS monitoring, which constantly monitors offender movements and provides agents with dynamic alerts of boundary violations. Offenders monitored on GPS consist of parolees, probationers who are monitored based on extenuating circumstances surrounding the nature of their offense, and offenders who have completed their parole and are wearing Lifetime GPS.

Table H6, lists end of month electronic monitoring populations by offender type.

Table H7, shows the 2012 end of month populations experienced by the GPS electronic tether program.

New Community Reentry Program Participants Monthly by Program Site

Calendar Years 2011 and 2012

In October 2007, the Intensive Detention Reentry Program (IDRP) was brought into the Community Reentry Programs. The IDRP began in July of 2004 as a result of the need to have an alternative for technical parole violators in counties where jail overcrowding had diminished the Department's ability to detain them. The goal was to provide parole agents the opportunity to detain parolees with compliance problems before they became more serious parole violators and, if needed, repeated incidents of noncompliance could be handled with repeated detentions.

Currently, the Department contracts with the Ingham County Jail to house parole violators for an average stay of about 30 days. In October 2012 the contract with the Clinton County Jail ended and the Wayne County IDRP was established within the Detroit

Reentry Center. One field agent is assigned to the Ingham County Jail to supervise the IDRP population. The field agent at the jail assists field agents in the community by developing an updated release plan for the parolee, which includes updated placement information, and outpatient or residential substance abuse recommendations based on assessments to determine level of care needed. While in the iails, parolees receive cognitive programming and Michigan Works employability skills training, including enrollment in the Michigan Works Talent Bank. Parolees complete and receive copies of resumes to use while searching for employment upon release.

The Residential Reentry Program (RRP) is currently operating at two sites. In 2008, the last Technical Rule Violator (TRV) center, Lake County TRV, changed its focus to Reentry by becoming the Lake County Residential Reentry Program. In October 2012, the Ryan Correctional Facility was repurposed and renamed the Detroit Reentry Center (DRC). The Tuscola Residential Reentry Program closed on October 23, 2012 and the program was reestablished inside the DRC.

Both sites house and work with parolees who need a Reentry refresher course when their behavior exhibits early signs of parole failure. DRC also provides programming to new parolees placed as a condition of their parole. DRC houses male parolees. Lake County houses both male and female parolees.

The below table shows the number of new Community Reentry Program participants by month and program site.

H2 Community Reentry Program Terminations Monthly by Program Site

Calendar Years 2011 and 2012

In 2012, out of the total 3,559 IDRP terminations (Clinton, Ingham, and Wayne), there were 3,554 parolees that successfully completed the IDRP. Among the total 2,185 RRP terminations (Lake County, Tuscola, and Detroit), 2,111 parolees successfully completed the RRP. The 2012 average successful stay for parolees in the IDRP was 24.3 days (down from 26.8 days in 2011), and for the RRP 65.1 days (down from 66.5 days in 2011).

Unsuccessful IDRP and RRP terminations occurred in about 1.4% of all terminations for 2012. Parolees failed the RRP after an average of 35.9 days in 2012, compared to 39.3 days in 2011. Typical reasons for unsuccessful terminations from the RRP include:

- Abscond violation
- Medically/Psychologically unmanageable
- Substance abuse violations
- Rule violation (non-substance abuse)

- New felony/misdemeanor
- Threatening/assaultive behavior
- · Creating a disturbance
- Failure to follow rules of Reentry Center
- As determined by Central Office or Area Manager/ Center Manager

New Electronic Monitoring Participants Monthly by Offender Type Calendar Years 2011 and 2012

The Electronic Monitoring Center is staffed 24/7 year round. Monitored probationers and parolees are assigned to and supervised by field agents throughout the State, but all monitoring of the equipment, alert processing and notification, and inventory control is managed through the Monitoring Center. The Center also contracts to provide monitoring services for Community Electronic Monitoring (CEM) and for the Regional Detention Services System (RDSS).

The table below breaks down the new electronic monitoring participants by month and type of offender.

H5 Monthly Electronic Monitoring Terminations by Offender Type

Calendar Years 2011 and 2012

The table below shows the monthly electronic monitoring terminations by offender type. The following are typical reasons for unsuccessful terminations on electronic monitoring:

- Substance abuse violation
- Curfew violation
- · Tampering with tether device
- · Abscond violation

- New felony
- Administrative termination, which occurs when the offender is unable to continue for reasons beyond their control, such as loss of home placement, hospitalization, or commitment to a treatment program.

H6 End of Month Electronic Monitoring Populations by Offender Type Calendar Years 2011 and 2012

The Electronic Monitoring Center has equipment to handle approximately 2,800 offenders on RF monitoring. While fully operational at that level in the past, a considerable reduction in numbers has occurred since the implementation of the 1998 Truth-in-Sentencing legislation, which has caused the number of prisoners in the Community Residential Program (CRP) to fall from around 1,500 prisoners on electronic monitoring

to no prisoners in the CRP as of December 31, 2009.

The monthly new monitoring participants, monthly monitoring terminations, and average lengths of stay resulted in the end of month electronic monitoring populations shown in the table below.

H7 Monthly GPS Electronic Tether Program Activity Calendar Year 2012

The use of Global Positioning System (GPS) monitoring allows for the tracking of offender movement in order to determine compliance with supervision plans. The Department only uses active GPS monitoring which constantly monitors offender movements and provides agents with dynamic alerts of boundary violations. Passive GPS monitoring, which stores offender movement information for later review, is no longer used by the Department.

Offenders monitored on GPS consist of parolees who may be monitored up to 2 years, 19 probationers who are monitored based on extenuating circumstances surrounding the nature of their instant offense, and 23 offenders who have completed their parole and are wearing Lifetime GPS.

Pursuant to state law, if an offender is sentenced to prison for CSC 2nd the sentencing court also must sentence the offender to lifetime GPS if the offense was committed on or after August 28, 2006, at the time of the offense the offender was 17 years of age or older, and the victim was less than 13 years of age. The same held true for CSC 1st offenders until an appellate court ruling dated

May 17, 2012 which stated that if an offender is sentenced to prison for CSC 1st for an offense that was committed on or after August 28, 2006 the sentencing court must also sentence the offender to lifetime GPS regardless of the age of the defendant or the age of the victim.

Alerts for Lifetime GPS offenders who have completed their parole are routed through the Michigan State Police for investigation and possible referral for a new felony warrant. The Department does not have any jurisdiction over Lifetime GPS offenders who have completed their parole. To balance public safety interests and available resources, parolees released from prison on or after January 8, 2007 whose current offense requires registration under the Sex Offender Registration Act shall be monitored on some form of electronic monitoring whenever practical. The Parole Board may waive GPS monitoring when medical and/or mental capacity issues make it impractical. GPS monitoring may also be used for select parolees as an intervention or sanction for non-compliance with the order for parole.

GPS electronic monitoring shall be used for prisoners granted parole for offenses listed below:

Conviction Charge	Technology/Length (Revised March 2, 2012)
	If Lifetime GPS: GPS for life (current term and beyond). If not Lifetime GPS case:
CSC - 1st Degree	- If any VASOR (or any other MDOC approved sex offender assessment tool) or COMPAS (Violence/Recidivism) score is HIGH or victim was a stranger or non-family member, GPS is required for their entire term.
	- If the offenders highest VASOR (or any other MDOC approved sex offender assessment tool) or COMPAS (Violence/Recidivism) score is MODER-ATE or LOW and the victim was a family member, GPS is only required for the first year. If the parolee is in compliance with supervision they shall be reduced to RF for the remainder of their parole term.
CSC - 2nd Degree	If Lifetime GPS: GPS for life (current term and beyond). If not Lifetime GPS case: GPS for the first year. If the parolee is in compliance with supervision they shall be reduced to RF for the remainder of their parole term.
CSC - 3rd Degree	GPS for the first year. If the parolee is in compliance with supervision they shall be reduced from GPS to RF for the remainder of their term.

Conviction Charge	Technology/Length (Revised March 2, 2012)
Requires Sex Offender Registration	GPS for a minimum of the first 6 months. If the parolee is in compliance with supervision they shall be reduced from GPS to RF for the remainder of their term.
Failure to Register as Sex Offender	GPS for a minimum of the first 6 months. If the parolee is in compliance with supervision they shall be reduced from GPS to RF for the remainder of their term.
Aggravated Stalking or serving any other sentence with a concurrent probation term for Aggravated Stalking	GPS for the entire term of parole.
Domestic Violence - Third Offense	GPS for the first six months for offenders whose parole date is on or after 2/17/12. For offenders who paroled prior to 2/17/12, RF for the first six months. Parolees convicted of Domestic Violence 3rd on or after 2/17/12 who are not returned to prison as a result of the conviction are required to be on GPS for six months after community supervision continues.
Parole Board Ordered to GPS	GPS for a minimum of the first 6 months. If the parolee is in compliance with supervision they shall be reduced from GPS to RF for a minimum of 6 additional months.

During 2012, there were 2,892 GPS activations and 3,208 terminations. Of the 3,208 terminations, 365 (11.4%) were for administrative reasons. For the remaining 2,843 terminations, 442 (15.5%) were a result of technical violations, 68 (2.4%) were a result of new sentence failures, 125 (4.4%) are currently absconders, and 2,208 (77.7%) were a result of

successful completion of GPS. Of the 442 terminations that were a result of technical violations, 138 were for uncharged criminal behavior, making up 31.2% of technical violations and 4.3% of all terminations.

The table below shows the 2012 end of month GPS populations.
